📍 Bengaluru, India | 🌐 Open to EU/EEA Relocation with Visa Sponsorship

PROFESSIONAL SUMMARY

3+ years of hands-on experience developing production-grade AI systems, multi-agent architectures, and enterprise chatbot solutions. Proven expertise in Data Science, Machine Learning, and Artificial Intelligence with specialization in Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and full-stack development. Successfully delivered scalable AI platforms serving multiple clients with measurable business impact including 95% reduction in manual processes. Strong background in MLOps and agile collaboration with cross-functional teams. Eager to contribute to Europe's AI innovation ecosystem and bring global perspective to cutting-edge projects.

PROFESSIONAL EXPERIENCE

AI Engineer

Terralogic Software Solutions | Bengaluru, India | Nov 2025 – Present

- Architected enterprise-grade multi-tenant admin portal managing 4 production AI chatbots processing 10,000+ conversations monthly across diverse industry domains with 99.5% uptime.
- Engineered intelligent document indexing system processing 500+ PDFs and 200+ website URLs, reducing knowledge base update time from 2 hours to 5 minutes (96% improvement) through automated RAG pipeline.
- Developed comprehensive analytics dashboard analyzing 50,000+ user interactions with AI-powered summarization achieving 85% accuracy in category assignment, enabling data-driven optimization decisions.
- Implemented secure API key management system supporting 15+ third-party integrations and optimized RAG architectures improving response relevance by 40%.

Founding AI Engineer

Ariana.Digital | Remote | Aug 2025 – Oct 2025

- Designed and deployed autonomous AI interview platform conducting real-time voice-based interviews with high candidate satisfaction, leveraging OpenAI Realtime API, Twilio Video, and WebRTC.
- Integrated multimodal AI achieving 92% natural conversation flow accuracy with average interview duration of 25 minutes, processing speech recognition at <500ms latency.
- Built production-ready scalable backend with optimized Next.js, Node.js, and Supabase architecture featuring dynamic prompt engineering and session management.

AI Engineer

Everite Solutions (Client: Ming Entertainments) | Jan 2025 – Aug 2025

- Led end-to-end development of WhooCrew, an agentic AI recruitment platform utilizing multi-agent systems for automated candidate sourcing, ranking, and engagement.
- Collaborated with cross-functional stakeholders to design intelligent workflows automating 95% of manual recruitment tasks including contract generation and candidate outreach.
- Established integration architecture with PostgreSQL, Supabase, and FastAPI ensuring data consistency and scalability for enterprise client deployments.

Data Scientist Intern

Selective Insurance | New Jersey, USA | May 2024 – Dec 2024

- Developed automated OCR pipeline in Azure ML Studio processing 5,000+ insurance PDFs using Tesseract and OpenCV, achieving 20% accuracy improvement and 30% processing time reduction.
- Performed NLP analysis on 1M+ workers' compensation claims; optimized LDA topic modeling improving classification accuracy from 58% to 65%.
- Presented data-driven insights to C-level executives using advanced visualizations (dendrograms, network graphs, SHAP values) influencing strategic business decisions.

Data Analyst Intern

Everite Solutions | Jan 2022 – May 2023

- Designed 20+ Power BI dashboards for enterprise clients resulting in 30% increase in client satisfaction through actionable data insights and interactive visualizations.
- Delivered 15 analytical reports on COVID-19 testing operations across 8 industries, processing 100,000+ data points to support critical operational decisions.

KEY PROJECT

Historic Chatbot Educational Platform

Personal Project | May 2025 – Present

- Architected full-stack educational platform enabling voice and text conversations with AI-powered historical figures using advanced prompt engineering and persona modeling.
- Implemented RAG architecture using LangChain, CrewAI, OpenAI GPT-4, Pinecone vector database, and Supabase for contextual knowledge retrieval and conversation persistence.
- Deployed production system on GCP using FastAPI with gamified learning assessments and comprehensive user analytics tracking engagement metrics.

EDUCATION

Master of Science

Data Science

Stevens Institute of Technology

Hoboken, New Jersey, USA

September 2023 – May 2025

Relevant Coursework:

Machine Learning, Deep Learning, Statistical Methods, Time Series Analysis, Marketing Analytics, Data Visualization, Optimization

CORE COMPETENCIES

AI & Machine Learning

Large Language Models (LLMs), Generative AI, Retrieval-Augmented Generation (RAG), Multi-Agent Systems, Natural Language Processing, Computer Vision, Deep Learning, Transformers, Prompt Engineering, MLOps, Model Fine-tuning

Programming & Frameworks

Python, JavaScript/TypeScript, SQL, R • React.js, Next.js, Node.js, Flask, FastAPI • LangChain, CrewAI, Hugging Face, TensorFlow, PyTorch, Scikit-learn

Cloud & DevOps

AWS, Microsoft Azure, Google Cloud Platform (GCP), Docker, Kubernetes, CI/CD Pipelines, Git, GitHub Actions, Azure ML Studio

Databases & Vector Stores

PostgreSQL, Supabase, MongoDB, Pinecone, ChromaDB, FAISS, Redis

AI Tools & APIs

OpenAI API, Anthropic Claude, Gemini, Llama, Mistral, OpenCV, Tesseract OCR, SHAP, Gensim, Twilio, WebRTC

Data Analytics & BI

Power BI, Tableau, Pandas, NumPy, Statistical Modeling, Time Series, Predictive Analytics

LANGUAGES

English – Fluent (C1)

Hindi – Native

Telugu – Native

ADDITIONAL INFORMATION

Work Authorization:

Indian citizen eligible for EU Blue Card sponsorship. Available for immediate relocation to EU/EEA countries.

Interests & Passion:

Building AI-powered tools for personal productivity and automation. Passionate about exploring European culture, travel, and experiencing diverse cuisines. Enthusiastic about leveraging AI to solve everyday problems and create innovative side projects that combine technology with real-world applications.

Professional Focus:

AI Safety & Ethics, Responsible AI Development, Cross-Cultural Collaboration, Contributing to Europe's Digital Transformation
